

Chair Report, Steve Loosley
April 6, 2018

1. **Industrial Technology Building.** David, Guy, and I are ex-officio members on the committee charged with planning the new building. The committee met recently, and Jason presented data on career opportunities for different sectors. The committee asked for additional data on the automotive program. There seems to be a consensus to engage a consultant to formalize a plan, though no action was taken. The committee plans to meet again soon.
2. **UCC Foundation.** I am saddened by the announcement that Susan Taylor will be leaving the college in June to move to Blacksburg, Virginia, where her husband has accepted a job. I will work closely with the College and Foundation leadership as we seek a replacement director.
