Transfer Education

The Associate of Arts Oregon Transfer (AAOT) and Associate of Science (AS) degrees are designed to meet the first two years of academic work at a college or university. The AAOT degree meets all of the lower division (freshman and sophomore) general education requirements at all of the Oregon University System (OUS) schools, and many other colleges and universities. Associate of Science (AS) degrees are specific to receiving institutions and meet the receiving institution requirements as described by articulation agreements.

Associate of General Studies—AGS

The Associate of General Studies (AGS) degree is designed for students wishing to acquire a broad education, rather than pursue a specific major or career using a variety of collegiate level courses. Because of this degree's flexibility, it may not fulfill requirements for transfer to a four-year school.

Career & Technical Education—AAS and C

Career and technical programs provide instruction in the knowledge and skills from a wide variety of occupations that demand education beyond high school. Students prepare for employment by completing a two-year associate degree in applied sciences or by completing shorter term certificate programs. In many fields, career and technical education may enhance employment opportunities by providing students with industry certifications desired by employers. While career-technical programs are designed primarily to prepare the student for immediate employment, many also offer opportunities for transfer to another college or university. Students are encouraged to speak with an academic advisor about these possibilities.
