INSIDE THIS PUBLICATION

ABOUT COMMUNITY CONNECTIONS

This publication, which was once called the UCC quarterly class schedule, is now called UCC Community Connections.

For the past several years, the college has mailed the class schedule to roughly 50,000 homes in Douglas County as our way of informing the public what we offer. As technology has changed, so has our way of reaching the community. A few years ago we made the printed schedule that you receive in your mailbox available online. The schedule is the second most-read source on the UCC website, so we know how important it is for this information to be accessible and current.

In changing to this new publication, we've moved our college "credit class" schedule completely online. The students in our community will always have access to the most up-to-date credit class schedule additions and changes — something we weren't able to provide when the schedule was in print. The online schedule can be accessed 24/7 at umpqua.edu/class-schedule.

So what's here? You'll still find the schedule and information for Community and Workforce Training, Small Business Development Center, and Adult Basic Skills as well as information on Registration and a calendar of UCC's Arts and Athletics events. In addition, we'll share stories about students, outstanding alumni, and community partners who join us in academic excellence.

Check it out. We welcome your feedback.

SPOTLIGHT ON FUTURE SUCCESS

Determined to Welcome More Students This Fall

Mathematics Professor, Dr. Mary Stinnett

Without a doubt, COVID-19 has disrupted all of our lives. Who knew that when many of us left campus last March that we would be away for this long? Despite the many obstacles we have all encountered over the past year, countless students have stuck with their studies and are now preparing to graduate in June.

UCC is determined to return to more normal campus operations this Fall term. As more people become eligible to receive COVID-19 vaccinations and the transmission rates remain low, the College is able to safely and gradually offer more opportunities for in-person instruction. While the campus has been partially closed over the past year, several projects to bring new technologies to campus have been completed. As more classroom doors begin to reopen to welcome more students, those new technologies will be used to expand learning opportunities.

"This last year has proven that our students can persevere during difficult

times while constantly learning new concepts," Missy Olson, UCC's Assistant Vice-President for Enrollment and Student Services, said. "As we look toward the future, UCC will continue to incorporate new technology and virtual classes while also bringing back in-person course options and activities."

UCC will offer five delivery models this Fall:

1. Hybrid (50-50)

Enrolled students will be split into two groups. Half of the students will attend class in person (F2F), and the other half will attend synchronously via zoom; then they will switch the next day of class. Classes will be split equally between F2F and synchronously each week. Classes with enrollment of 12 or less may meet F2F as a group if social distancing can be met.

2. HyFlex / Live-streaming

Hyflex allows for students to choose from three learning modalities: face-to-face,

synchronously (remote), or asynchronously (online). Students can change the modality they attend from class session to class session while ensuring COVID-19 physical distancing and face mask guidelines are followed.

3. Remote Delivery

Remote delivery is defined as virtual synchronous instruction led via Zoom. Working remotely during COVID-19 has created interest in many students who desire to continue to learn using Zoom.

4. WEB/Online Delivery

Online classes are defined as fully asynchronous. They have been previously approved by UCC Online for web delivery.

5. F2F for (selected) Career and Technical Education

CTE courses that were approved for F2F instruction will continue as is.

"We know that every student learns differently and has various life circumstances impacting his or her schedule," Olson said. "We hope our various class offerings programs can meet individual needs while supporting our students' successes."

Please keep in mind that campus life will not be exactly like it was before the pandemic. We will continue to follow all state mandates that currently include mask usage and enforcing physical distancing guidelines. As an institution, we also encourage people to get vaccinated if they can.

For more information, visit umpqua.edu/future-students.

SPOTLIGHT ON STUDENT SUCCESS

Learning a New Language for a Better Future

Every day, students from diverse backgrounds hone their skills to become better English speakers.

English Language Acquisition (ELA) is one of the Adult Basic Skills Programs offered through UCC's main campus, at the Woolley Center in Roseburg, and in Myrtle Creek. The program supports and enhances diversity and inclusiveness in Douglas County. ELA helps non-English speaking students acquire work, pursue higher education, and achieve skills to help them functionally participate in the community. The program has helped students from more than 15 countries around the globe such as Brazil, China, Cambodia, Guatemala, Germany, Mexico, Thailand, Vietnam, Ukraine, and others. "Our ELA class has a very good teacher," Lucy, a student from China, said. "She is very patient, understanding, and supportive. She shows her enthusiasm in teaching us even though we have

different levels of English proficiency. She has faith in us and makes us believe that we can make progress in our learning, big or small."

Students build skills in English speaking, writing, and listening. They practice conversations that assist them in their everyday life activities such as attending parent-teacher conferences, helping their children with homework, going to a doctor's appointment, shopping for groceries, buying gas, and more. The class also equips students with basic computer skills, which is helpful for job seeking.

"I do not only learn English," Lucy said, "but I also learn how to use a computer and set goals. As a result, I [even] passed my driver's license exam."

Raquel, a student from Brazil, shared her personal experience.

"My stepdaughter told me about ELA classes at UCC. At first, I didn't want to come. I was so afraid that people would laugh at me because I spoke zero English. I told her I would be there only one day just to try it out, only one day. If I didn't like it, I would not return."

She continued, "I loved the teacher and class from the moment I got there. The teacher and classmates are two key ingredients. I love learning together with them. It is not a stressful class that makes you nervous. It is a fun class where you can learn, have fun, and build friendships at the same time."

When asking one of the ELA program instructors, Marguerite Garrison, why the residents from diverse backgrounds need to learn English, she said, "Learning English is very important for their futures and the future of their children."

Garrison added, "You should learn English because your children will speak English. One day your children will speak the language, English, that you don't speak. You should learn English because your grandchildren speak English, and you want to talk to them. You should learn English because you want a job. You should learn English because you want to do things. For everything, you need English."

Whether you speak zero, little, or some English, the ELA classes can help to improve your English even better.
