This does not include personal choice situations. (Personal choices, while they may be well intended, do not constitute extenuating circumstances for which the student has no control.)

Step 1 – ALL STUDENTS MUST SUBMIT THE FOLLOWING DOCUMENTATION

Attach a detailed signed statement explaining your change in income, including dates.

Attach last paystub(s) received

YOUR REQUEST WILL NOT BE REVIEWED WITHOUT DOCUMENTATION

INSTRUCTIONS FOR REDUCED INCOME

PLEASE NOTE: *You must submit the completed Special Circumstance form with all documentation.*

When you or your family have a change of income and request a change in eligibility based on the reduced figures for 2019 instead of the 2017 income filed on the FAFSA application, you must do several things:

1. Explain the reason for this request in a detailed signed statement.

Complete Step 4 (*the total of Actual YTD and Projected income should give a complete picture of earnings for 2019*).

In Step 4 "Actual YTD, from Jan 1 to _____",

- Enter the date you are filling out the form.
- Declare your households actual year-to-date (YTD) 2019 earnings from all jobs (i.e. yourself if single, yourself and spouse if married, or yourself and parents if you are dependent.)
- You must submit supporting documentation on all of the household earnings (see step 3).

In Step 4 "Projected, from _____ to Dec 31",

- Enter the date of the day after you are filling out the form. (e.g. If you put Mar. 3 above, put Mar. 4 here)
- Provide a "best estimate" of your households projected earnings for this period.
- Explain how you came up with these projected income figures in your attached explanation statement.

EXAMPLE of PROJECTED EARNINGS:

⇒ My spouse has worked at the same job all of 2018 and will continue to work at the same rate of pay. The total YTD earnings for my spouse are \$10,758 which covers 21 weeks. That is equal to \$512.29 per week (\$10,758 divided by 21 = \$512.29). Therefore, I project my spouse will make \$15,881 (\$512.29 x 31 remaining weeks.)

⇒ My household's total projected earnings are: Myself, \$4080 part-time earnings. My spouse will make \$15,881. Total projected earnings = \$19,961.
