

State Licensure/Certification Links, Reciprocity, & Disclosure of Curriculum Alignment Table

The following table indicates a) whether students earning their license/certification* through the UCC Limited Maintenance Electrician Apprenticeship (LME) Programs have reciprocity to practice in other U. S. states and b) provides a list of states for which UCC has determined curriculum alignment (34 CFR § 668.43 - Institutional information).

State	Does student have reciprocity to practice in the state?			Does the UCC Curriculum meet the state requirements for licensure or certification?			Link to State Licensing Agency for Inquires Re: New License/Certification
	Yes	No	Do not know	Yes	No	Do not know	
Alabama		X		X			Alabama Electrical Contractors Board No LME License or Cert. required.
Alaska		X			X		https://labor.alaska.gov/lss/forms/cof-app.pdf No LME License or Cert., should meet the experiential requirements for the Electrical Residential Cert. of Fitness, where graduate could work on residential sites or as a trainee on commercial sites. Requires an examination. Most jobs appear to require the Journeyman Cert. of Fitness, which LME does not meet the requirement for.
Arizona		X			X		https://roc.az.gov/applying-license The most similar certification would be a C-11 Electrical License under specialty commercial contracting. This requires 4 years of experience and an exam. Some jobs appear to require journeyman licenses, but those are issued by municipalities.
Arkansas		X			X		https://www.labor.arkansas.gov/divisions/code-enforcement/electrical-inspection-and-licensing/ No LME, but Industrial Maintenance Electrician instead requires 4 years of experience under a professional or apprenticeship program, as approved by the board. Exam required. It does not appear that maintenance jobs require any licensure.
California		X			X		https://www.dir.ca.gov/dlse/ECU/ElectricalTrade.html https://www.dir.ca.gov/DLSE/ECU/EleCat.html#1 No LME, but there are different types of certifications that only require 4,000 hours. It does not appear the categories of UCC's program overlaps with those required categories, as much as they would need to be to meet the requirements. Not all jobs require certification.

State	Does student have reciprocity to practice in the state?			Does the UCC Curriculum meet the state requirements for licensure or certification?			Link to State Licensing Agency for Inquires Re: New License/Certification
Colorado		X		X			https://dpo.colorado.gov/Electrical/Applications No LME or similar licensure. Most jobs do not appear to require any LME or similar licensure.
Connecticut		X			X		https://portal.ct.gov/DCP/Occupational-and-Professional-Division/Occupational--Profess/Electrical-License-Types-and-Scope-of-Work No LME or similar License or Cert. A lot of maintenance jobs appear to require a E-1 or E-2 license, which the LME program does not meet the requirements for.
Delaware		X		X			https://dpr.delaware.gov/boards/electrician/newlicense/ https://delcode.delaware.gov/title24/c014/sc02/index.html Most jobs do not appear to require any license. The LME certification requires 3 years OR 4,000 hours. Our LME program requires 4,000 to complete.
Florida		X				X	DBPR Electrical Licenses No LME or similar licensure. The experiential requirements for the other certifications are completion of 40% of work in 3-phase services. Most jobs do not appear to require any certification.
Georgia		X			X		https://sos.ga.gov/cgi-bin/plbforms.asp?board=44 No LME or similar. Only option is for electrical contracting, which requires 4 years of experience. Most maintenance electrician jobs do not appear to require a license.
Hawaii		X		X			Hawaii DCCA Licensing Division Maintenance Electrician only requires 1000 hours and one year of experience. Journey Worker Industrial Electrician requires 8000 hours. Some require an electrical license but do not specify which one.
Idaho		X		X			https://dbs.idaho.gov/licensing-continuing-education/electrical-licenses/ Limited Electrical Installer requires 2 years, 4000 hours, of experience in addition to an exam. Different types are available under this license that may coincide with our program. Most maintenance jobs do not appear to require a license.
Illinois		X				X	No statewide licensure or certification procedure. Municipal electrical licenses will vary per area.
Indiana		X				X	No statewide licensure or certification. Will vary per area.
Iowa		X			X		https://dps.iowa.gov/divisions/state-fire-marshal/electrical-examining-board/licensing

State	Does student have reciprocity to practice in the state?			Does the UCC Curriculum meet the state requirements for licensure or certification?			Link to State Licensing Agency for Inquires Re: New License/Certification
							It appears most maintenance electrician jobs do not require any licensure. This program does not meet any of the requirements for the other electrician licenses.
Kansas		X				X	No state licensing or certification. It appears most maintenance electrician jobs do not require any type of licensing either.
Kentucky		X				X	https://dhbc.ky.gov/new_docs.aspx?cat=150 No LME specific licensing. Many jobs do not require a license but do require substantial experience.
Louisiana		X				X	No statewide electrician's licensing. Will vary by area.
Maine		X		X			Limited Electrician License application All Electrician Applications The is link for Maine's LME license. The LME program meets the requirements for certain specialties, like low energy. Most maintenance jobs do not require a license.
Maryland		X				X	https://www.dlir.state.md.us/license/elec/elecereg.shtml No LME or similar license or certification. Most jobs do not appear to require a license.
Massachusetts		X			X		https://www.mass.gov/lists/board-of-state-examiners-of-electricians-applications-and-forms There does not appear to be any requirements for the different licenses on the issuer website, but from Mass. school websites, it appears the minimum classroom hours are 300. Many, but not all, maintenance jobs appear to require a journeyman license.
Michigan		X			X		https://www.michigan.gov/lara/0,4601,7-154-89334_10575_17394_77372-42954--00.html The only License that the LME meets the number of hours is Sign Specialist License, but it specifies the hours be in electric signs and related wiring. It doesn't appear that most maintenance jobs require any licensure.
Minnesota		X			X		https://secure.doli.state.mn.us/license/initialapp.aspx The only license that the LME program meets the requirements for is Class B Installer. It does not meet the requirements for Maintenance Electrician. Not all jobs require licensure of any sort.
Mississippi		X				X	Licenses given at the state level will only be necessary for residential work over \$10,000 or commercial work over \$50,000; all others will be given at the local level. Most maintenance jobs do not appear to require any licensure.

State	Does student have reciprocity to practice in the state?		Does the UCC Curriculum meet the state requirements for licensure or certification?		Link to State Licensing Agency for Inquires Re: New License/Certification	
Missouri		X			X	Again, no state license requirements, so check with local municipalities. Most maintenance jobs do not require any licensure.
Montana		X			X	https://boards.bsd.dli.mt.gov/electrical/license-information/ No LME, but the hours meet the requirement for the Residential Electrician License.
Nebraska		X			X	https://electrical.nebraska.gov/exam-information-and-licensing-applications No LME, nor does the LME program meet any of the requirements for the available licenses. Most jobs do not require licensure.
Nevada		X			X	No license required. Some jobs do require a journeyman license, but each municipality has different requirements for that.
New Hampshire		X			X	It doesn't look like there is any LME License or similar required. Most jobs do not require any licensure.
New Jersey		X			X	NJ Division of Consumer Affairs No LME License or similar. The LME program does not meet the requirements for either of the licenses offered. Most jobs do not require any licensure or certification.
New Mexico		X			X	https://www.rld.nm.gov/construction-industries/find-a-bureau/continuing-education/construction-industries/electrical/ No LME or similar. One website says that each license requires 8,000 hours. I also don't think the link here provides a lot of information about the licenses, but I couldn't find any other ones that are from the NM boards. It looks like many require a journeyman license.
New York		X			X	There is no statewide licensure, check for specific municipalities.
North Carolina		X		X		https://www.ncbeec.org/licensing/ Appears to meet the experience for LME license: two years, with one year being primary experience. Exam is required though. Some, but not all, require some sort of certification.
North Dakota		X			X	https://www.ndseb.com/licensing/general-information/ No LME license, and the program doesn't meet requirements for any of the types of licensures.
Ohio		X			X	No licensing required for limited maintenance electricians.
Oklahoma		X			X	No licensing required for limited maintenance electricians.
Oregon	X			X		https://www.oregon.gov/boli/apprenticeship/pages/apprenticeship-opportunities.aspx

State	Does student have reciprocity to practice in the state?		Does the UCC Curriculum meet the state requirements for licensure or certification?			Link to State Licensing Agency for Inquires Re: New License/Certification
Pennsylvania		X			X	No state licensing, check local areas. Doesn't appear that maintenance jobs require a license.
Rhode Island		X		X		https://law.justia.com/codes/rhode-island/2021/title-5/chapter-5-6/section-5-6-24/ It appears that there is a maintenance journeyman license that a lot of jobs require, but it requires 6,000 hours.
South Carolina		X			X	No licensing requirement for maintenance electrician jobs.
South Dakota		X		X		A lot, but not all, of the maintenance jobs require a journeyman license, which the LME program does not meet the requirements for. https://dlr.sd.gov/electrical/licensing.aspx#requirements
Tennessee		X			X	Most jobs do not look like they require a license. There is no statewide similar license, check with municipalities.
Texas		X		X		Most jobs don't require a license, it appears. The state website says that each person performing electrical work must be licensed. The LME program does not meet the requirements for the Maintenance Electrician License .
Utah		X		X		Some jobs require a journeyman license, but others do not. The LME program does not meet the requirements for journeyman license.
Vermont		X		X		Specialty License Most jobs do not appear to require a license to work in the state, but the LME program meets the requirements for a specialty license that can perform certain repairs.
Virginia		X		X		Most maintenance jobs do not require a license. Those that do, require a journeyman license, which this program does not meet the requirements for. https://www.dpor.virginia.gov/Boards/Tradesmen
Washington		X		X		https://lni.wa.gov/licensing-permits/electrical/electrical-licensing-exams-education/electrician#specialty-electricians There is a nonresidential maintenance specialty license, that appears to be the most like the LME license. This appears to be a preferred qualification for jobs, but not required.
West Virginia		X		X		WV Electrical License Information Most jobs do not appear to require a license, but the LME Program meets the experiential requirements for journeyman license. An additional exam is required.

State	Does student have reciprocity to practice in the state?		Does the UCC Curriculum meet the state requirements for licensure or certification?			Link to State Licensing Agency for Inquires Re: New License/Certification
Wisconsin		X		X		Many maintenance jobs require a journeyman license, but some do not. The LME program does not meet the requirements. Programs list
Wyoming		X	X			https://wsfm.wyo.gov/electrical-safety/licensing Meets the requirement for limited technician license.

Table last updated 10/29/21

*Some areas may use the term *certification* in lieu of *license*; as with a *teaching certification*.

STATUTE

34 CFR § 668.43 - Institutional information.

(v) If an educational program is designed to meet educational requirements for a specific professional license or certification that is required for employment in an occupation, or is advertised as meeting such requirements, information regarding whether completion of that program would be sufficient to meet licensure requirements in a State for that occupation, including -

(A) A list of all States for which the institution has determined that its curriculum meets the State educational requirements for licensure or certification;

(B) A list of all States for which the institution has determined that its curriculum does not meet the State educational requirements for licensure or certification; and

(C) A list of all States for which the institution has not made a [determination](#) that its curriculum meets the State educational requirements for licensure or certification.
